
In the framework of investigation of the criminal case against "airfields road bridges" salary debt has been partially redeemed

The investigation of a criminal case initiated in connection with a non-payment of salary to employees by the management of "Airfields Road Bridges" is continued by the Murmansk Region investigating bodies of the Russia's Investigative Committee.

Investigators believe that since October to December 2015 the director of the company did not pay salary to employees for over two months because of personal interest, possessing necessary amount of money at the same time.

According to preliminary data, the sum of outstanding salary was more than 30 million rubles.

Significant volume of investigation work has been done, accounting expert examination has been appointed and are being conducted on the criminal case. Moreover, in order to provide redemption of damage inflicted the property of "Airfields Roads Bridges" has been seized.

In the course of investigation of the criminal case the management of "Airfields Roads Bridges" begun redemption of debt to employees with the help of measures taken by investigation in interaction with the bodies of the procuracy. At present back pay of not less than 16 million rubles is redeemed to over 100 employees of the enterprise.

Progress and results of investigation of the criminal case by the Investigative Committee of the Russian Federation are staked on special control. The investigation of the criminal case continues.
