
In Moscow, probe into Khovanskoye cemetery shootout continues

Officials of the Moscow Directorate of the Investigative Committee together with operatives of the Moscow Directorate of the Interior Ministry have performed a number of operations to identify and detain the suspects of crimes committed on Khovanskoye cemetery.

More than 200 people have been questioned. A court will soon consider the request of investigators to remand in custody the presumed organizer of the shootout Yuri Chabuyev.

However, it is necessary that eye-witnesses help to find all the details of the crime. Footage from cell phone and dash cams are of utmost importance. We are asking all those who witnessed the fight on Khovanskoye cemetery to call: 8(495)694-94-10, 694-92-78, 694-83-81. Anonymity is guaranteed.
