
Investigative Committee checking media reports into violations of anti-doping rules

The Russia's Investigative Committee is carrying out pre-investigative checks into media reports about regular violations of anti-doping rules.

The information under check was published in a number of articles on behalf of former officials of the Moscow anti-doping laboratory Grigory Rodchenkov and the Russian Anti-Doping Agency (RUSADA) Vitaly Stepanov.

A procedural decision will be made following the checks.
