
Statement on probe against Alexey Ulyukayev

The RF Investigative Committee is investigating a criminal case against former Economic Development Minister Alexey Ulyukayev. We have made public all possible and exhaustive enough information available at this point. We have said in a statement earlier that there is only one person of interest in this investigation and one count of charges. All other information whether on the ways the crime was committed by, the number of persons of interests or counts of charges, investigative and search operations and the time needed to investigators to look into the case is not truthful and is fully on the conscience of those news agencies that use dishonest, ill-informed or incompetent sources.
