
The Chairman of the Investigative Committee of Russia requests a report on progress of assessment upon the fact of Covid-19 outbreak in Zelenye Gorki sports and recreation complex in Krasnoyarsk Territory

The Chairman of the Investigative Committee of Russia requested a report on progress of pre-investigative probe launched upon the fact of Covid-19 outbreak in Zelenye Gorki sports and recreation complex in Mansky District of Krasnoyarsk Territory. The Main Investigative Department for the Krasnoyarsk Territory and the Republic of Khakassia of the Investigative Committee of Russia is carrying out a pre-investigative probe into negligence and rendering of services that do not meet safety requirements for life and health of consumers.

According to preliminary data, the medical diagnostics revealed Covid-19 in 20 vacationers and two scoutmasters. At present, the condition of the sick is regarded as mild, all the sick were taken out of the complex and sent for outpatient observation at the place of residence.

During the assessment, the camp workers will be checked for compliance with the established requirements of sanitary and epidemiological legislation. The progress of the assessment is under the supervision of the Central Office of the Investigative Committee of Russia.
