
Alexander Bastrykin puts under supervision the progress of inquiries into incidents with senior people in Perm Territory and Tyumen Region

The Tyumen Regional Investigative Department of the Investigative Committee of Russia is carrying out an assessment over mass media materials about improper medical care provided to a 93-year-old Great Patriotic War veteran entailing his death.

Also, the Perm Regional Investigative Department of the Investigative Committee of Russia organized a check of information that a 70-year-old woman was locked in an apartment by her own children, who boarded up the windows and hung a lock on the door, thereby depriving her of her freedom.

The Chairman of the Investigative Committee of Russia instructed the regional investigative bodies to report on the progress of the inquiries into violation of rights of pensioners and put their results

under supervision of the Central Office of the Committee.
