
The Chairman of the Investigative Committee of Russia reported about prompt solving of a murder in the Orenburg Region

The Chairman of the Investigative Committee of Russia was reported about prompt solving of a murder in the Orenburg Region

Yesterday afternoon in the city of Orsk, Orenburg Oblast, the body of a girl was found with clear signs of violent death. The investigators identified the victim during investigative and search activities. She was a 39-year-old resident of the city. After identifying the deceased, information was received that a 42-year-old acquaintance of the girl was involved in the crime. This information was confirmed during the further investigation. In the morning, investigators managed to locate and detain the man.

The Chairman of the Investigative Committee of Russia Alexander Ivanovich Bastrykin commended the joint work of the investigators, forensic specialists of the Investigative Committee of Russia and operational police officers, thanks to the meticulous work of which it was possible to identify and

detain the suspect in the shortest possible time.
