## **The Chairman of the Investigative Committee of Russia requested a report on circumstances of death of a school student in the Moscow Region**

The investigative authorities received a report about the death of a 17-year-old schoolboy in the classroom of an educational institution. An inquiry into this fact was immediately organized. It was established that the minor had health problems in his lifetime. During examination of the scene, as well as of the body of the pupil, no injuries were found. Currently, teachers and classmates of the boy are being questioned, medical records and medical history of the child have been requested, forensic medical examination has been appointed.

The Chairman of the Investigative Committee instructed the head of the Investigative Committee of Russia in the Moscow Region A. Starikov to investigate the circumstances of the incident and report on the situation.
