
The Chairman of the Investigative Committee of Russia requested a report on the information voiced in an appeal published in the media by residents of Ufa

The media reported on the intention of residents of the Yuzhny Microdistrict of Ufa to record a video appeal to the leadership of the Investigative Committee of Russia. It is reported that the residents are unhappy that a 27-story building is going to be built next to their low-rise house and, in their opinion, if the building is built, people will simply have nowhere to educate their children, since no new social facilities are planned to be built in the near future, and all the nearest kindergartens and schools are overcrowded.

The Chairman of Investigative Committee of Russia instructed the Head of Investigative Department of the Investigative Committee of Russia for the Republic of Bashkortostan D.N. Chernyaev to report on the situation.

The progress of execution of the order was put under supervision of the Central Office of the Investigative Committee.
