
Chairman of the IC of Russia Instructs Investigators to Check Facts Regarding Creation of Biological Weapons in Ukraine

Today it was reported that during a special military operation, the facts indicating Ukrainian military forces' emergency elimination of traces of a military biological program to create biological weapons in Ukraine were revealed.

Chairman of the IC of Russia A. I. Bastrykin instructed his subordinates to request information, to study the reported data and, if the information is confirmed, to decide on initiating a criminal case and to identify all persons involved in committing the crime.
