
Chairman of the IC of Russia Instructs to Urgently Report on Investigation of Explosions in Belgorod Oblast

The Chairman of the Investigative Committee instructed to investigate explosions in Belgorod Oblast.

According to the available information, on the night of March 23-24, several explosions resulting from a shell launched from the direction of Ukraine were registered in the border village of Zhuravlyovka, Belgorod Oblast. The number of destroyed or damaged residential and non-residential buildings is being clarified.

A. I. Bastrykin instructed to submit an urgent report on the incident and to closely monitor the investigation progress.
