
The Investigative Committee of Russia establishes the shelling circumstances of civilians in Gorlovka

The Investigative Committee of Russia will establish the shelling circumstances in Gorlovka city, committed by Ukrainian nationalists, as a result of which local residents have suffered.

According to information received, armed formations of Ukraine shelled the “Shakhty Gagarina” settlement located in Gorlovka, firing 10 shells with a 122mm caliber. As a result, two civilians were injured. Several houses were also damaged.

Within the criminal investigation, the Investigative Committee of Russia will document the traces of this crime and will identify the Ukrainian security forces officials involved in its commission.
