
The Investigators of the Russian Investigative Committee document and investigate the explosion in Melitopol committed by Ukrainian sabotage demolitionists

Investigators of the Russian Investigative Committee will document and investigate the car explosion in the Melitopol city, Zaporozhskaya oblast of Ukraine, as a result of which the civilians were injured.

According to reports, on May 30, 2022, the explosion committed by Ukrainian saboteurs occurred in the center of the Melitopol city near the residential building during the humanitarian aid distribution. According to preliminary information, three people were injured, including the volunteers, two of them were hospitalized.

The Investigative Committee of the Russian Federation will identify the persons involved in the commission of this crime in order to prosecute the perpetrators and to ensure the principle of

punishment inevitability.
