## **A Chairman of the Investigative Committee instructed to report on the injury of a child occurred on a rope track in Barnaul**

The Chairman of the Investigative Committee of the Russian Federation instructed Mr. Kolesnichenko I.V. - the acting Head of the Investigative Directorate for Altayskiy krai, to submit a report on the investigation progress related to a child injury on a rope track in the Barnaul city.

According to the investigation, on July 10, 2022, in the afternoon in the "Jungle" Rope Park, a 13-year-old boy fell to the ground and received multiple injuries as a result of a break in the safety cable. The young child was admitted to a hospital. It is known that the amusement park belongs to one of the individual businessman. Upon the injury to the child, the Investigative Bodies of the Investigative Committee of the Russian Federation for the Altai Territory immediately organized a pre-investigation on the provision of services wheather the life safety requirements are not met, or endanger the life or health of consumers.

---

The progress of the investigation is a subject to control in the Main Directorate of the Investigative Committee of Russia.

During the summer holidays, cases of injury to children on the rides and during recreational activities become more frequent. Unfortunately, every year we have to state that the Organizers do not always take care of the safety rules compliance for both: the visitors and the people around them, when installing public amusement rides, as practice shows. In addition, instructors do not have sufficient qualifications, while working on amusement rides.

The Investigative Committee draws the attention of children entertainmen providers to the need to comply with all safety requirements and routine equipment and machinery inspection for compliance with standards in order to prevent injury and death of citizens.

We also draw the attention of parents when choosing an amusement ride - it is necessary to revise and read through the rules for using any of the amusement, where all possible restrictions are indicated regarding the age, height, weight or health of children. It is necessary to make sure whether the amusement passed the routine maintenance and whether the relevant documents are available - the Client remains the right to get the necessary information about the services provided.

The Investigative Committee immediately responds to all cases of rules violation related to the safety of life and health of Clients, taking measures prescribed by the law and prosecuting all those responsible for safety rules supervision.
