
The Chairman of the Investigative Committee of Russia instructs to launch a criminal investigation on the murder of the Head of the military-civilian administration of Mikhailovka, urban-type settlement, Zaporozhye oblast

The Chairman of the Investigative Committee of the Russian Federation instructed to launch a criminal case into the death of Mr. Ivan Sushko, Head of the military-civilian administration of the urban-type settlement named Mikhailovka, located in Zaporozhye oblast and to report on the initial investigative actions.

According to reports, Mr. Sushko died as a result of a car explosion. Presumably, an explosive device was planted under the seat of his car.

Within the criminal investigation, Investigators of the Russian Investigative Committee will identify

all the circumstances of the crime and the persons involved in it. The investigation is a subject to control in the Main Investigative Directorate the IC.
