
The Chairman of the Investigative Committee of Russia instructs to organize a procedural inspection relative for complaints of Moscow oblast residents about the pollution of the river

The Federal Channel reported on the complaints of residents of the city of Dmitrov, Moscow Region, about the pollution of the Staraya Yakhroma River. Residents note the presence of a pungent odor near the river and its actual pollution, while, according to local residents, the water treatment facilities cannot cope with the situation.

The Chairman of the Investigative Committee of Russia instructed Mr. Starikov A.Yu, Head of the Main Investigative Directorate of the Investigative Committee of Russia for Moscow oblast to start a procedural inspection on this fact and report on the situation.

The execution of the order is a subject to control in the Main Directorate.
