
The Chairman of the Investigative Committee of Russia instructs to launch criminal cases in connection with the destruction of civilian infrastructure in Belgorod and Bryansk oblasts

As a result of the shelling of the Zhuravlevka settlement, Belgorod oblast, committed by the Armed Forces of Ukraine, the buildings of the school, the Community Centre and the local administration were partially destroyed.

In Bryansk oblast, three kilometers from the border with Ukraine, two power transmission towers near the railway were damaged, which, in their turn, damaged the railway track. A DAF-144 (delayed-action fuse) was found near the broken structures.

Mr. Alexander Ivanovich Bastrykin instructed his subordinates to launch criminal cases on the mentioned above facts and to submit a report.
