
The jurisdiction of the Divisions of the Investigative Committee of Russia in the investigation of accidents on transport infrastructure in the new subjects of the Russian Federation is determined

The Chairman of the Investigative Committee of Russia issued an order amending the list of territories covered by the jurisdiction of the Investigating Authorities on the transport of the Russian Investigative Committee.

In accordance with the mentioned normative act, transport infrastructure accidents committed on the territories of the Donetsk and the Lugansk People's Republics, as well as Kherson and Zaporozhye Oblasts, will be investigated by the Western Interregional Transport Investigative Directorate of the Investigative Committee of Russia.
