
The Chairman of the Investigative Committee of Russia instructs to organize an inspection into the fact of the discovery of a projectile on the railway tracks in Bryansk Oblast

Recently it was reported that an inappropriate object was found near the railway tracks of the Bryansk-Lgovsky station. It turned out to be an anti-personnel projectile without a fuse. There was no infrastructure damage. The situation did not affect the movement of trains.

Mr. Alexander Ivanovich Bastrykin instructed Mr. Vyments P.S., Head of the Western Interregional Investigative Directorate for Transport, to organize an inspection and report on the established circumstances.
