
The Head of the Department will be reported on the progress of the verification of information on environmental pollution in Moscow Oblast

The Federal Channel reported on complaints of residents from the Konoplino village, Moscow Oblast, about environmental pollution due to the suspended construction of a waste processing plant. It was noted that hazardous waste was stored near residential buildings, and environmentalists have already assessed the damage caused to the environment. The Investigating Authorities of the Main Investigative Directorate of the Investigative Committee of Russia for Moscow Oblast are conducting an inspection.

The Chairman of the Investigative Committee of Russia instructed Mr. Starikov A.Yu. Head of the Investigative Directorate of the ICR for Moscow Oblast, to submit a report on the situation. The inspection and results of it are the subject to control in the Main Investigative Directorate of the Department.
