
The Chairman of the Investigative Committee of Russia instructs to conduct an inspection into the possible violation of the rights of children in Krasnoyarsk Krai

Information is spreading in social media that in the Maly Imysh village, Krasnoyarsk Krai, a School Principal, during experiments at a chemistry lesson, mixed several reagents in a test tube, which caused them to ignite and release a toxic substance. Several schoolchildren were poisoned by the allocated steam.

The Head of the Department instructed Mr. Eremin A.L., Head of the Main Investigative Directorate of the Investigative Committee of Russia for Krasnoyarsk Krai and the Republic of Khakassia, to conduct an investigation into the possible violation of children's rights and report on all the circumstances of the incident. The inspection and its results are the subject to control in the Main Directorate of the Investigative Committee.
