
In Orenburg Region employees of Investigations Directorate visit patronized children's home and congratulate inmates on Children's Day

On the eve of the International Children's Day employees of the Investigations Directorate visited orphans in the village of Tashla, Tyulgan District.

For several years the investigators have been visiting and making happy children in patronized Special (remedial) boarding school for orphans and children left without parental care. To patronize such facilities is a good tradition in law enforcement.

The investigators made presents – sweets, fruit, clothes, shoes, toys and books. In their turn children made a concert for their guests. Boys and girls sang, recited poems, danced, and gave their patrons flowers and wooden handicrafts, which they had made themselves.
