## **In Tomsk Region head of department of regional administration and head of district charged with exceeding authority**

The investigating bodies of the Russia's Investigative Committee for the Tomsk Region continue investigating a criminal case over exceeding official authority by head of Pervomaysky District of the Tomsk Region and head of department at the Tomsk Region administration (part 2 of article 286 of the RF Penal Code).

According to preliminary information, 2009 to 2012 head of Pervomaysky District and head of business development and real economy sector department of the Tomsk Region administration from conspired and acted in the interests of commercial organizations, thus exceeding their official authorities. The head of the District filed with the business development and real economy sector department of the Tomsk Region administration applications agreed with its head on timber from the Russian Federation forest resources to municipal needs. The applications contained knowingly
