
Moscow Region Main Investigations Directorate calls for heads of children and youth camps, children and their parents be careful with gas tanks

In connection with the explosion of a gas tank that has happened at the House of Young Tourist holiday camp of the Moscow Children's Center of Ecology, Local History and Tourism in the village of Mukhanki, Dmitrov District, Moscow Region, injuring 8 children including severe burns, we warn heads of children and youth camps, children and their parents, tourists, hunters, fishers and all those who use gas tanks of different brands, including Sledopyt, model PF-FG-450 990 cm³, 450 g, to be very careful, read carefully terms of use of gas tanks and gas burners!

Gas tanks should be protected against direct sun rays and temperature over 40 C⁰. You must not disassemble them, pierce, burn, hit or deform! You must keep them away from children! It is strictly prohibited to refuel the tank! Do not let children go near burning gas burners! Do not let small children play with gas tanks or burners, keep tanks and burners in a safe place out of children's reach!
