
Former president of executive board of International Industrial Bank Alexander Didenko to stand trial for embezzlement

The Main Investigations Directorate of the Russia's Investigative Committee has finished investigating a case against former President of the executive board of ZAO International Industrial Bank Alexander Didenko. He is charged with a crime under part 4 of article 160 of the RF Penal Code (misappropriation).

According to the investigators, in 2008-2009, an organized group which included among the others President of executive board of the International Industrial Bank Alexander Didenko (at present manager of Krasnaya Presnya office of Sberbank of Russia) and GM of ZAO OPK Development Dmitry Amunts (at present deputy head of the Federal Agency for Tourism) stole from the International Industrial Bank over 28 billion rubles.

The case against Didenko was severed in a separate proceeding. He actively cooperated with the investigators and made a deal. It should be noted that Didenko's cooperation allowed the

investigators to get the evidence of the said crime committed by Sergey Pugachev and Dmitry Amunts, but to reveal another crime committed by Pugachev which caused the International Industrial Bank damage of 64 billion rubles.

The investigators have enough evidence, so the criminal case with the approved incitement has been sent to court to be tried on the merits.

At the present time the case against Amunts is about to be finished.

Pugachev is wanted. A court ruled to place him in custody in absentia. The investigation against him is ongoing.
