## **Investigative Committee and Ministry of Education work out cooperation agreement**

The Russia's Investigative Committee and the Ministry of Education and Science are working on an agreement on international cooperation to establish main forms, principles and order of interaction between the two agencies.

It is assumed that the cooperation agreement will work to develop educational and scientific organizations of the Investigative Committee and provides for exchange of legal, training, methodological, scientific, statistical and other information of interest and that falls in line with main areas of activity of the two agencies.

Besides, the agreement will also mention assistance in passing real assets necessary for the core activity for management to educational and scientific organizations of the Investigative Committee.

The signing of the agreement is aimed at productive cooperation of the two agencies, which will contribute to improvement and enhancement of efficiency of the Investigative Committee and Ministry of Education and Science.
