## **In Krasnodar investigators looking into collapse of tower crane injuring crane driver**

In the morning of 28 October 2015, the Krasnodar Territory law-enforcement bodies got a report that a tower crane had collapsed in Shalyapin street and injured the crane driver. The Krasnodar Territory investigating bodies of the Russia's Investigative Committee have launched a pre-investigating check.

According to preliminary data, a block of flats is being built in Shalyapin street. Today's morning during adjustment and alignment a KB-405 tower crane with the driver in the cabin collapsed on nearby garage cooperative. The man was injured in the collapse and taken to hospital.

At present, the investigators are examining the scene. Check is underway to find out all the circumstances of the crime. A procedural decision will be made following the check.
